DETAILED ACTION

1. The amendment received October 28, 2004 has been entered and carefully considered. In addition, a telephone interview was conducted on December 10, 2004, the applicant agreed to cancel claim 24 without prejudice or disclaimer to make the case in condition for allowance. However, claim 9 (original) are still under rejection and the amendment filed 10-24-2004 does not provide any argument for the claim 9. Since there were no arguments presented by the applicant for the claim 9, the examiner assumes that this was a typographical error. The examiner kindly suggests canceling claims 9 and 24, in response to this office action to make the case in condition for allowance. The examiner maintains the art rejection for the above reasons, as follows.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 24 is rejected under 35 U.S.C. 102(b) as being anticipated by Beaman et al. (5,898,857).

See pages 2-5 of the last office action mailed July 23, 2004 for the rejection details.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Beaman et al. (5,898,857).

See pages 2-5 of the last office action mailed July 23, 2004 for the rejection details.

Allowable Subject matter

4. All of the pending claims except the claims 9 & 24 are allowable over prior art of record.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
